### **SEPA THRESHOLD DETERMINATION DETERMINATION OF NONSIGNIFICANCE (DNS)**

### **2011 Transportation Master Plan Update**

#### **PROJECT INFORMATION**

The proposal calls for adoption of the City of Shoreline's Transportation Master Plan (TMP) and amendments to the Development Code and Comprehensive Plan necessary to maintain consistency between the three documents. The TMP is a long-range plan that helps guide how the City develops its Capital Improvement Program, coordinates transportation improvements with land uses, and plans for what is needed to respond to growth.

**Proposed Project  
Description:**

Shoreline is updating the TMP due to significant changes that have been completed and that are planned for the City's transportation system since the TMP was originally created in 2005. Completed changes include the Interurban Trail, improvements to Aurora Avenue<sup>®</sup> N, and the pedestrian bridges across Aurora Avenue N. New bus rapid transit service from both Metro (expected to begin in 2010) and Community Transit and the light rail extension from Northgate are changes that are coming to Shoreline's transportation system.
