

**ECONOMIC DEVELOPMENT ELEMENT**

**Goal** Provide for economically productive uses that are particularly dependent on their shoreline location or use.

**Objective** Plan for economic activity that is water-dependent, water-related, or that provides an opportunity for a substantial number of people to enjoy the shoreline and water.

**PUBLIC ACCESS ELEMENT**

**Goal** Increase public access to publicly-owned areas of the shoreline.

**Objective** Provide for public access to publicly owned shoreline areas, except where deemed inappropriate due to safety hazards, inherent security problems, environmental impacts, or conflicts with adjacent uses.

**RECREATIONAL ELEMENT**

**Goal** Develop public and private recreation opportunities that are compatible with adjacent uses and that protect the shoreline environments.

**Objective** Provide for the preservation and enlargement of public and private recreational opportunities and recreational facilities along the shoreline, including but not limited to, parks and recreational areas, wherever appropriate.

**CIRCULATION ELEMENT**

**Goal** Provide inter-connected, efficient, and safe transportation networks to and around the shoreline to accommodate vehicles, transit, pedestrians, and cyclists.

**Objective** Provide for a safe and adequate circulation system, including existing and proposed major thoroughfares, transportation routes, terminals, and other public utilities and facilities within the shoreline jurisdiction that benefit permitted uses without degrading the environment or aesthetic values of the area.

**SHORELINE USE ELEMENT**

**Goal** Regulate land use patterns to locate activity and development in areas of the shoreline that will be compatible with adjacent uses and will be sensitive to existing shoreline environments, habitat, and ecological systems.

**Objective** Include protections for the natural environment and adjacent uses in the Shoreline Development Code, Point Wells Subarea Plan, Saltwater Park master planning efforts, and other regulatory framework for development along the shoreline.

**CONSERVATION ELEMENT**

**Goal** Conserve and protect the natural resources of the shoreline including, but not limited to scenic vistas, aesthetics, and vital estuarine areas for fisheries and wildlife protection.

**Objective** Through the use of best available science, develop and implement siting criteria, design standards, and best management practices that promote the long term enhancement of unique shoreline features, natural resources, and fish and wildlife habitat.

**HISTORICAL/CULTURAL ELEMENT**

**Goal** Identify, preserve, protect, and restore shoreline areas, buildings, and sites having historical, cultural, educational, or scientific values.

**Objective** Educate citizens on historical, cultural, and scientific significance of shoreline structures, amenities, and functions.

**FLOOD HAZARD MANAGEMENT**

**Goal** Protect the City of Shoreline and other property owners from losses and damage created by flooding along the coast and sea-level rise.

**Objective** Seek regional solutions to flooding problems through coordinated planning with state and federal agencies, other appropriate interests, and the public.

**Objective** Develop a plan to mitigate and adapt to potentially altered environmental conditions along the coastline resulting from climate change.

**RESTORATION ELEMENT**

**Goal** Improve water quality, reduce the impacts of flooding events; and restore natural areas, vegetation, and habitat functions.

**Objective** Seek funding for restoration projects within the shoreline jurisdiction and require development proposals to address habitat restoration and water quality.

**Objective** Engage in discussions with other municipalities that border the Puget Sound and BNSF railroad regarding efforts to benefit fish passage and nutrient transfer.
