# Transportation Impact Fees

The City of Shoreline adopted Transportation Impact Fees by Ordinance No. 690 effective January 1, 2015. This ordinance is found in Shoreline Municipal Code (SMC) Chapter 12.40.

Transportation impact fees are charges assessed by the City against new development projects. The fees help recover the costs the City incurs for transportation system improvements to accommodate the higher travel demand added by the new development. The fees are assessed based upon the size and type of a development. In this way, each development contributes a proportionate share toward mitigating the transportation impacts to the City due to growth.

## **When are Transportation Impact Fees required?**

Impact fees are required as part of development proposals when an applicant is seeking a building permit from the City. All building permits issued by the City will be charged impact fees. See Table A for fees.

## **Are there exemptions to the Transportation Impact Fees?**

The following development activities are exempted from the payment of all transportation impact fees:

- Alteration or replacement of an existing residential structure that does not create an additional dwelling unit or change the type of dwelling unit
- Alteration or replacement of an existing non-residential structure that does not expand the usable space or change the existing land use
- Miscellaneous improvements which do not generate increased need for transportation facilities, including, but not limited to, fences, walls, residential swimming pools, and signs
- Demolition or moving of a structure
- Properties that have undergone State Environmental Policy Act review and received a final decision that includes mitigation requirements
- Any development that creates insignificant and/or temporary additional impacts on any transportation facility, including, but not limited to, home occupations that do not generate any additional transportation demand, special event permits, and temporary structures not exceeding a total of 30 days
- Low-income housing, subject to specific conditions
- Community-Based Human Services Agency, subject to specific conditions
- Businesses, subject to specific conditions

## **Hours of Operation:**

Monday 8:00 am-5:00 pm  
Tuesday 8:00 am-5:00 pm  
Wednesday 1:00 pm-5:00 pm  
Thursday 8:00 am-5:00 pm  
Friday 8:00 am-5:00 pm

*Permit Processing Ends at 4:00 pm Daily*

## **When are Transportation Impact Fees due?**

Impact fees are due and payable at the time a building permit is issued by the City.

## **How were the Transportation Impact Fees calculated?**

The calculation of transportation impact fees, listed in Table A, is described in the Rate Study for Impact Fees for Transportation, adopted with Ordinance No. 690. A copy of the rate study can be obtained by contacting the Planning & Community Development Department at [pcd@shorelinewa.gov](mailto:pcd@shorelinewa.gov) or 206-801-2500. The rate study used methods for calculating the impact fees that are consistent with the requirements of State of Washington codes.

## **How can I estimate the amount of my Transportation Impact Fees?**

Impact fees can be estimated using the rates shown in Table A. Impact fees for residential uses can be estimated by multiplying the proposed number of dwelling units by the appropriate impact fee rate. The impact fees for most commercial uses can be estimated by multiplying the proposed square footage by the appropriate impact fee rate. You can use the City's online fee calculator to estimate the amount of the fee for the types of development listed in Table A.

## **Where does money collected for the Transportation Impact Fees go?**

Fees collected will be applied toward the seven transportation projects listed in the Rate Study for Impact Fees for Transportation. The project locations are shown on Map 1. The projects descriptions are:

1. Addition of a center two-way left-turn lane and traffic calming measures on Meridian Avenue N from N 145<sup>th</sup> Street to N 205<sup>th</sup> Street
2. Intersection improvements at N 185<sup>th</sup> Street and Meridian Avenue N
3. Addition of a center two-way left-turn lane on N 175<sup>th</sup> Street from Stone Avenue N to Meridian Avenue N
4. Intersection improvements at N 175<sup>th</sup> Street and Meridian Avenue N
5. Extension of left-turn pockets on N/NE 175<sup>th</sup> Street between Meridian Avenue N and the I-5 on-/off-ramps
6. Intersection improvements at NE 175<sup>th</sup> Street and 15<sup>th</sup> Avenue NE
7. Addition of a center two-way left-turn lane on NE 185<sup>th</sup> Street from 1<sup>st</sup> Avenue NE to 7<sup>th</sup> Avenue NE

## **How is the Transportation Impact Fee calculated if the use of the building is changed?**

An impact fee applies to a building permit application that includes changing the use of the existing building from a lower impact use to a higher impact use. The transportation impact fee shall be the applicable impact fee for the land use category of the new use, less any impact fee associated with the preceding use. For example, if a permitted general office space (which has a lower fee) was changed to a medical office space (which has a higher fee) then the impact fee would be calculated based on difference between the lower fee and the higher fee.

### **How would a refund be considered?**

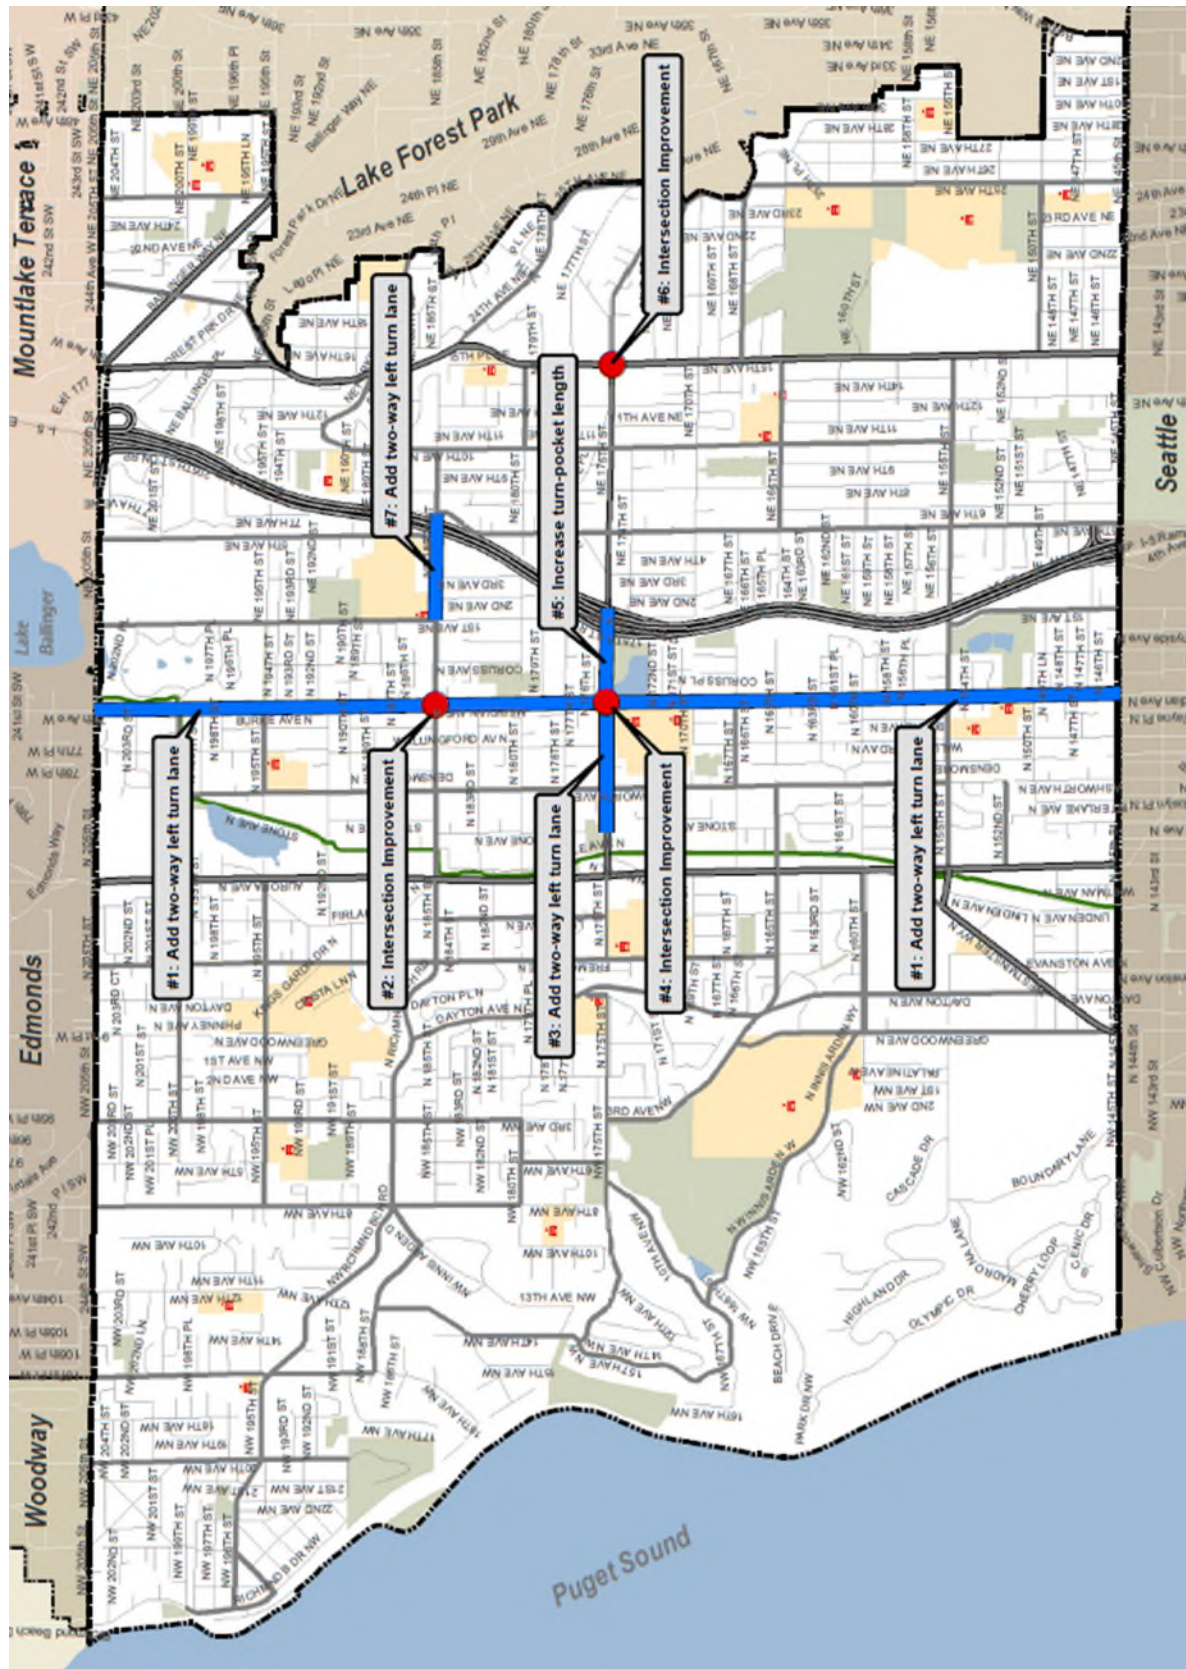

A project applicant may request a refund, including interest earned on transportation impact fees, when:

1. The permitted development activity is not pursued, and
2. The City has not expended or encumbered the impact fees in good faith prior to the application for refund.

If the City has expended or encumbered the fees in good faith, no refund shall be granted, but the amount of the impact fee may be credited against future impact fees on the same parcel. Owners seeking a refund of transportation impact fees must submit a written request for a refund of the fees to the Director within one year of the date the right to claim such refund arises or the date that notice is given, whichever is later.
