RE: Critical Areas Ordinance Update – Public Comment Submitted

Please see the enclosed materials submitted in person today by 'Sue Doe'.

Documents were provided in both digital (Thumb Drive) and paper copies. Despite this, one of the items listed on the accompanying cover sheet index (.5 Unstable Slopes) was not among the items submitted, additionally there were three extra articles submitted that were not listed in the index. I scanned and added them as:

21. The Ecology of Tree Roots and the Practical Significance Thereof
22. Influence of Forest Harvesting Activities on Debris Avalanches and Flows
23. Root Strength and Tree Anchorage
