

Lynnwood Link Extension

Opening 2024

Construction alert

January 2019

Kiss sculpture relocation

Sound Transit is offsetting impacts to wetlands as a result of light rail construction in Shoreline by creating new wetlands at Ronald Bog Park.

The first step in constructing the Ronald Bog Wetland Mitigation Site is to move Michael Sweeney's *The Kiss* to a new location within the park. Starting in January 2019, Sound Transit will construct a new earthen mound approximately 200 feet east from the sculpture's current location and then carefully transfer the sculpture to the new mound (see map on back).

Construction of the wetland mitigation site is expected to begin in summer 2019.

What

- › Relocation of *The Kiss* sculpture.
- › A few parking stalls will be temporarily occupied for construction use.
- › A temporary road access will be installed for equipment access to work site.

When

- › Starting in January 2019, work area will be marked and fenced off from public access.
- › Work will occur from 7 a.m. - 4 p.m., Monday – Friday.
- › Work will take approximately five weeks to complete.

Where

Ronald Bog Park, Shoreline.
