8. Shoreline Place Development
9. Regarding this development and the notice received in the mail. I see that there are 1,358 residential units planned in the seven buildings. What I don't see on the map or verbiage is parking for these units.

That means the potential for at least 1,358 extra cars (if one car per unit) and if multiple occupants in some of the units up to 2,600 extra cars fighting for parking! The parking dilemma will have a terrible impact on customers trying to shop at the businesses next door and for the local neighborhood where I live, who will have to deal with this. I request two less buildings and more surface parking!

Thank you,  
City of Shoreline
