

REQUEST FOR SEPA COMMENTS

NAME OF PROJECT: The 185th MCS Report includes a refined corridor plan, intersection design analysis, ROW needs, utility coordination, conceptual design guidelines, cost estimate, project delivery approach, and funding strategy. The 185th MCS is a non-project action that will serve as a guide to ensure that future public and private development projects contribute to a cohesive vision and will help the City competitively seek funding opportunities. More information at: <http://www.shorelinewa.gov/government/projects-initiatives/185th-street-multimodal-corridor-strategy>

SITE ADDRESS: The 185th Street Corridor is anchored by the future light rail station on the east side of Interstate 5 and created by three roads: N/NE 185th Street, 10th Avenue NE, and NE 180th Street. For this study, the term “185th Street Corridor” is used to succinctly describe the collection of these three streets

Routed to the agencies on **September 18, 2019**
