PAPERY
MADRONE BARK

FIND NATURE'S TEXTURES

See if you can find all the items in a row, column, or corner to corner.

Find and feel these textures in your yard, your neighborhood, and our parks. We've included some examples, but you can find lots of other choices for each category. What else can you think of in nature that is spiky or smooth or furry or delicate?

Remember to be safe when you're out and about: Stay six feet apart from others, wash your hands frequently, and don't touch your face. Be sure to wear a mask when close to others.
