

**ORDINANCE NO. 96**

**AN ORDINANCE OF THE CITY OF SHORELINE,  
WASHINGTON, PROVIDING FOR ADMINISTRATIVE  
PROCEDURES FOR PERMIT REVIEW, LAND USE HEARING  
AND APPEALS**

WHEREAS, Substitute House Bill 1724, Chapter 347 of the laws of 1995, requires the City to adopt regulations implementing uniform administrative procedures for land use applications; and

WHEREAS, the purpose of this ordinance is to create a clear and simple process for administration of the permit review process for conducting hearings and appeals of land use decisions; and

WHEREAS, the City Council finds that many land use decisions have been time-consuming and have followed a process that was confusing and unpredictable for the citizens of Shoreline; and

WHEREAS, the City Council also finds that the citizens will benefit from an efficient land use decision process that: (a) clearly defines the requirements for persons applying for permits or other land use actions; (b) establishes clear time allotments for decision making; (c) limits the number of hearings held regarding a single project; and (d) clearly delegates authority to administrators and decision-making bodies; and

WHEREAS, it is the intent of the City Council that: (a) City of Shoreline land use decisions are made efficiently; (b) citizens of Shoreline are provided with a clear process that includes predictable time frames for decision-making and clear procedural requirements for applicants and other interested parties; (c) multiple permits for a single project are integrated into a single review, hearing and appeal process; (d) no more than one open record hearing and one closed record hearing are held for any project; (e) the provisions of this chapter supersede all other procedural requirements that may exist in other sections of the city code; and (f) the provisions of this chapter implement the permit review procedures, hearing and appeals provisions of legislation enacted by the Washington State Legislature in 1995 to integrate growth management planning and environmental review (Substitute House Bill 1724, Chapter 347 of the laws of 1995); and

WHEREAS, the Planning Commission conducted public hearings on May 23 and June 6, 1996 on the proposed ordinance; and

WHEREAS, the adoption of these administrative procedures is exempt from the requirements of the State Environmental Policy Act; NOW, THEREFORE,

### **SECTION 5: PERMIT REVIEW PROCEDURES**

#### 5.1. **Types of Land Use Permit Processes**

Project permit review procedures are specified in Table 3. Type A and Type B actions are decisions made by the Director and described in Section 3 of this ordinance. Type C are actions by the Decision Making Body identified in Section 4 of this ordinance. Table 3 describes the type of permit/action, the notice requirements and the estimated target dates for decisions. Table 3 should be read in conjunction with Tables 1 and 2 which describe the Review Authority, Decision Making Body, and Appeal Authority for each land use application. Type A actions are administrative actions based on clear and nondiscretionary standards that require the application of professional expertise on technical issues. Flowchart 1 outlines the process for the Type B actions and Flowchart 2 identifies the process for the Type C actions.

Table 3 does not address processes for legislative decision. Legislative decisions involve the creation, amendment, or implementation of policy or law by ordinance. In contrast to other types of decisions, legislative decisions apply to large geographic areas and are of interest to many citizens and property owners. The process used for making legislative decisions is outside the scope of this ordinance.

# FLOWCHART 1: PROCESS FOR TYPE 'B' ACTIONS

## FLOWCHART 2: PROCESS FOR TYPE 'C' ACTIONS

## **5.2. Description of Major Steps in Permit Review Procedures**

### **A. PRE-APPLICATION MEETING**

Applicants for development permits are encouraged to participate in informal meetings with city staff and property owners in the neighborhood of the project site. Meetings with staff provide an opportunity to discuss the proposal in concept terms, identify the applicable city requirements and the project review process. Meetings or correspondence with the neighborhood serve the purpose of informing the neighborhood of the project proposal prior to the formal notice provided by the city.

### **B. APPLICATION**

All applications for permits or actions by the city shall be submitted on forms provided by the Development Services Group. An application shall contain all information required by the applicable development regulations, and shall include the following general information:

1. A verified statement by the applicant that the property that is the subject of the application is in the exclusive ownership of the applicant, or that the applicant has submitted the application with the consent of all owners of the property.
2. A property and/or legal description of the site
3. The application fee.

### **C. DETERMINATION OF COMPLETENESS**

1. An application shall be determined complete when all information required for the application, as specified in Appendix A, has been provided. An application is not accepted by the city for submission unless the application has been determined to be complete. If, upon review, the city determines that the application information provided is incomplete, within twenty-eight (28) days after receiving a permit application the City shall mail or personally provide a written determination to the applicant stating the inadequacies of the application.
2. If the applicant fails to provide the required information within 90 days, the application shall lapse. The applicant may request a refund of the application fee minus the city's cost of determining the completeness of the application.

#### D. PUBLIC NOTICE AND SEPA THRESHOLD DETERMINATION

1. Within fourteen days of the determination of completeness, the city shall issue a Notice of Application. If an open record hearing is required on the permit, the Notice of Application shall be provided at least fifteen days prior to the hearing.
2. The Notice of Application shall include the following information:
  - a. The dates of application, determination of completeness, and the date of the notice of application;
  - b. The name of the applicant;
  - c. The location and description of the project;
  - d. The requested actions and/or required studies;
  - e. The date, time and place of an open record hearing, if one has been scheduled;
  - f. Identification of environmental documents, if any;
  - g. A statement of the public comment period not less than fifteen (15) days nor more than thirty (30) days; and a statement of the rights of individuals to comment on the application, receive notice and participate in any hearings, request a copy of the decision (once made) and any appeal rights;
  - h. The city staff contact and phone number;
  - i. A description of the development regulations used in determining consistency of the project with the city's Comprehensive Plan; and
  - j. Any other information that the city determines to be appropriate.
3. The Notice of Application shall be made available to the public by the Development Services Group through use of the following methods:
  - a. Posting the property (for site specific proposals); and
  - b. Mailing to owners of real property located within 500' of the subject property.

4. All comments received on the Notice of Application, must be received by the Development Services Group by 5:00 PM on the last day of the comment period
5. The Development Services Group shall publish a notice of the application in the newspaper of general circulation for the general area in which the proposal is located. This notice shall include the project location and description, the type of permit(s) required, comment period dates, and the location where the complete application may be reviewed.
6. A Threshold Determination under the State Environmental Policy Act (SEPA) will be required for a project when: a) The scale of the proposal exceeds thresholds for review identified by WAC 197-11-800 and adopted by the City of Shoreline; or b) The proposal changes existing conditions within a designated environmentally sensitive area; or c) The proposal is a further division of a parcel of land previously created through the short platting process. A Determination of Significance shall be issued and an Environmental Impact Statement (EIS) required under SEPA when the responsible agency (the City of Shoreline Development Services Group) identifies probable significant adverse environmental impacts that cannot be mitigated without substantially modifying the proposal.
7. Except for a Determination of Significance, the city shall not issue a threshold determination or issue a decision on an application until the expiration of the public comment period on the Notice of Application.

E. FINAL DECISION, FINAL SEPA DETERMINATION AND NOTICE OF DECISION

Following closure of the public comment period, staff shall review all applicable provisions of the City of Shoreline Code, together with the information generated by the application, and issue a final decision approving or denying the application. This decision shall be communicated in a Notice of Decision that also includes a statement of any threshold determination issued under Chapter 43.21 RCW (SEPA) and the procedure for appeal. The Notice of Decision may take the form of a copy of the report or decision on the project permit application issued by the Development Services Group. The notice shall be provided to the applicant and to any person who, prior to the rendering of the decision, requested notice of the decision or submitted substantive comments on the application.
