SECTION 5: PERMIT REVIEW PROCEDURES

5.1. Types of Land Use Permit Processes

Project permit review procedures are specified in Table 3. Type A and Type B actions are decisions made by the Director and described in Section 3 of this ordinance. Type C are actions by the Decision Making Body identified in Section 4 of this ordinance. Table 3 describes the type of permit/action, the notice requirements and the estimated target dates for decisions. Table 3 should be read in conjunction with Tables 1 and 2 which describe the Review Authority, Decision Making Body, and Appeal Authority for each land use application. Type A actions are administrative actions based on clear and nondiscretionary standards that require the application of professional expertise on technical issues. Flowchart 1 outlines the process for the Type B actions and Flowchart 2 identifies the process for the Type C actions.

Table 3 does not address processes for legislative decision. Legislative decisions involve the creation, amendment, or implementation of policy or law by ordinance. In contrast to other types of decisions, legislative decisions apply to large geographic areas and are of interest to many citizens and property owners. The process used for making legislative decisions is outside the scope of this ordinance.

FLOWCHART 2: PROCESS FOR TYPE 'C' ACTIONS

5.2. Description of Major Steps in Permit Review Procedures

A. PRE-APPLICATION MEETING

Applicants for development permits are encouraged to participate in informal meetings with city staff and property owners in the neighborhood of the project site. Meetings with staff provide an opportunity to discuss the proposal in concept terms, identify the applicable city requirements and the project review process. Meetings or correspondence with the neighborhood serve the purpose of informing the neighborhood of the project proposal prior to the formal notice provided by the city.

B. APPLICATION

All applications for permits or actions by the city shall be submitted on forms provided by the Development Services Group. An application shall contain all information required by the applicable development regulations, and shall include the following general information:

1. A verified statement by the applicant that the property that is the subject of the application is in the exclusive ownership of the applicant, or that the applicant has submitted the application with the consent of all owners of the property.
2. A property and/or legal description of the site.
3. The application fee.

C. DETERMINATION OF COMPLETENESS

1. An application shall be determined complete when all information required for the application, as specified in Appendix A, has been provided. An application is not accepted by the city for submission unless the application has been determined to be complete. If, upon review, the city determines that the application information provided is incomplete, within twenty-eight (28) days after receiving a permit application the City shall mail or personally provide a written determination to the applicant stating the inadequacies of the application.
2. If the applicant fails to provide the required information within 90 days, the application shall lapse. The applicant may request a refund of the application fee minus the city's cost of determining the completeness of the application.

D. PUBLIC NOTICE AND SEPA THRESHOLD DETERMINATION

1. Within fourteen days of the determination of completeness, the city shall issue a Notice of Application. If an open record hearing is required on the permit, the Notice of Application shall be provided at least fifteen days prior to the hearing.
2. The Notice of Application shall include the following information:
 - a. The dates of application, determination of completeness, and the date of the notice of application;
 - b. The name of the applicant;
 - c. The location and description of the project;
 - d. The requested actions and/or required studies;
 - e. The date, time and place of an open record hearing, if one has been scheduled;
 - f. Identification of environmental documents, if any;
 - g. A statement of the public comment period not less than fifteen (15) days nor more than thirty (30) days; and a statement of the rights of individuals to comment on the application, receive notice and participate in any hearings, request a copy of the decision (once made) and any appeal rights;
 - h. The city staff contact and phone number;
 - i. A description of the development regulations used in determining consistency of the project with the city's Comprehensive Plan; and
 - j. Any other information that the city determines to be appropriate.
3. The Notice of Application shall be made available to the public by the Development Services Group through use of the following methods:
 - a. Posting the property (for site specific proposals); and
 - b. Mailing to owners of real property located within 500' of the subject property.

4. All comments received on the Notice of Application, must be received by the Development Services Group by 5:00 PM on the last day of the comment period
 5. The Development Services Group shall publish a notice of the application in the newspaper of general circulation for the general area in which the proposal is located. This notice shall include the project location and description, the type of permit(s) required, comment period dates, and the location where the complete application may be reviewed.
 6. A Threshold Determination under the State Environmental Policy Act (SEPA) will be required for a project when: a) The scale of the proposal exceeds thresholds for review identified by WAC 197-11-800 and adopted by the City of Shoreline; or b) The proposal changes existing conditions within a designated environmentally sensitive area; or c) The proposal is a further division of a parcel of land previously created through the short platting process. A Determination of Significance shall be issued and an Environmental Impact Statement (EIS) required under SEPA when the responsible official identifies probable significant adverse environmental impacts that cannot be mitigated without substantially modifying the proposal.
 7. Except for a Determination of Significance, the city shall not issue a threshold determination or issue a decision on an application until the expiration of the public comment period on the Notice of Application.
- E. FINAL DECISION, FINAL SEPA DETERMINATION AND NOTICE OF DECISION

Following closure of the public comment period, staff shall review all applicable provisions of the City of Shoreline Code, together with the information generated by the application, and issue a final decision approving or denying the application. This decision shall be communicated in a Notice of Decision that also includes a statement of any threshold determination issued under Chapter 43.21 RCW (SEPA) and the procedure for appeal. The Notice of Decision may take the form of a copy of the report or decision on the project permit application issued by the Development Services Group. The notice shall be provided to the applicant and to any person who, prior to the rendering of the decision, requested notice of the decision or submitted substantive comments on the application.
