**FINDINGS AND DETERMINATION OF THE CITY OF SHORELINE PLANNING  
COMMISSION**

Rick Burt Rezone Request File #201518

**Summary-**

Following the public hearing and deliberation on the request to change the zoning designation for a 11,020 Sq. Ft. parcel located at 19201 15<sup>th</sup> Avenue NW, the City of Shoreline Planning Commission has determined that the request is in compliance with City codes and not detrimental to the health, safety, or welfare of the City of Shoreline, and therefore recommends approval of such action.

**I. FINDINGS OF FACT****1. Project Description-**

- 1.1 Rezone the subject parcel from R-12 (Residential 12 units per acre) to R-18 (Residential 18 units per acre) in order to make the existing number of units on the site (4) conforming to the zoning.
- 1.2 Site Address: 19201 15<sup>th</sup> Avenue NW
- 1.3 Parcel Number: 0226039205
- 1.4 Zoning: R-12
- 1.5 The subject property has a current land use designation of High Density Residential identified on the City of Shoreline's Comprehensive Plan Land Use Map. A High Density Residential designation is consistent with the following zoning: R-12, R-18, R-24 and R-48.

**2. Procedural History-**

- 2.1 Public hearing held by the Planning Commission: July 6<sup>th</sup>, 2006
- 2.2 Notice of Public Hearing and SEPA Determination of Nonsignificance: June 1<sup>st</sup>, 2006
- 2.3 End of 14 day Public Comment Period: May 25<sup>th</sup>, 2006
- 2.4 Notice of Application with Optional DNS: May 11<sup>th</sup>, 2006
- 2.5 Complete Application Date: April 24<sup>th</sup>, 2006
- 2.6 Application Date: March 23<sup>rd</sup>, 2006
- 2.7 Neighborhood meeting Date: April 17<sup>th</sup>, 2006

**3. Public Comment-**

3.1 The following individuals participated in Neighborhood Meetings:

**21 people signed the mailing list at the required Neighborhood Meeting. General consensus was that the neighborhood is concerned about the illegal structure (four units on a site where the zoning permits only three), traffic, work without permits and preferential treatment of the property owner.**

3.2 Written Comments have been received from:

**Approximately 60 letters were received in response to the standard notice procedures for this application.**

3.3 Oral testimony has been received from:

**In addition to the applicant, seven adjacent property owners testified at the open record public hearing. The comments included: Access, traffic, work without permits and the illegal structure.**

**4 SEPA Determination-**

4.1 The optional DNS process for local project review, as specified in WAC 197-11-355, was used. City staff determined that the proposal will not have a probable significant adverse impact on the environment and that an environmental impact statement is not required under RCW 43.21C.030 (2) (c). A notice of determination of nonsignificance was issued on June 1<sup>st</sup>, 2006.

**7. Consistency –**

5.1 Site Rezone:

The application has been evaluated and found to be consistent with the five criteria listed in Shoreline Municipal Code Section 20.30.320 (B).

5.2 A recommendation to approve the Rezone does not constitute approval for any development proposal. Applicable permits shall be obtained prior to construction. Permit applications shall show compliance with the 1998 King County Storm Water Design Manual and Title 20 of the Shoreline Municipal Code (SMC). Applicable sections of the SMC include but are not limited to the following: Dimensional and Density Standards

---

20.50.010, Tree Conservation 20.50.290, Surface and Stormwater Management 20.60.060, and Streets and Access 20.60.140 and any conditions of the Rezone.

## II. CONCLUSIONS

### SITE REZONE:

Rezoning is subject to criteria contained in the Development Code. The proposal must meet the decision criteria listed in Section 20.30.320(B) of the SMC. The criteria are listed below, with a brief discussion of how the request meets the criteria.

**1. The rezone is consistent with the Comprehensive Plan.**

The Comprehensive Plan land use map identifies the subject parcel as *High Density Residential*. The site is currently zoned R-12 and is developed with a fourplex at a density of 15.8 dwelling units per acre. The density, though non-conforming to the zoning, is consistent with the density goals of the Comprehensive Plan which plans for these sites to accommodate from 12 to 48 dwelling units per acre.

The current structure is not consistent with the density goals of the R-12 zoning designation which allows a maximum density of 12 units per acre, or three dwelling units on this site. The proposed zone change is consistent with the Comprehensive Plan Land Use designation of High Density Residential and will allow the density of the existing structure to become legal in the zoning designation of R-18.

**2. The rezone will not adversely affect the public health, safety or general welfare.**

The proposal is to limit the number of units on this site to 4, which is the number of units currently on the site. Though the existing fourth unit is illegal, its existence has not had an adverse impact on the neighborhood.

The Commission does not believe that this rezone will cause additional requests for R-18 zoning south of this site. The comprehensive plan designation of the properties south of the site is MDR (Medium Density Residential) which permits R-8 and R-12 zoning. A comprehensive plan amendment is required to obtain greater densities than R-12. A Comprehensive Plan Amendment is a policy decision that would go to the Planning Commission for recommendation and final action by the City Council.

---

In an effort to protect the existing single-family neighborhood to the west and to advance the goals and policies of the low density residential land use designation, the Commission proposes several conditions. They are:

- A condition to block access to NW 192<sup>nd</sup> Street along the western border of the subject site for any tenant in perpetuity. By eliminating access to NW 192<sup>nd</sup> Street and waiving the requirement for additional parking spaces on-site, there is less potential for impact on the neighborhood to the west than under the current zoning designation which would permit tenant access from the west.
- Limit the number of units to four.
- Prohibit access easements across the site to serve other property owners
- Require a 10 foot wide, Type I landscape buffer along the western edge of the property.

**3. The rezone is warranted in order to achieve consistency with the Comprehensive Plan.**

The subject parcel is currently zoned R-12. The application to change the zoning of the parcel to R-18 was initiated by the PADS Director in order to make an existing illegal building consistent with the density of the zone. The site's Comprehensive Plan land use designation is *High Density Residential*. Consistent zoning designations for this land use designation include: R-12, R-18, R-24, and R-48.

The current zoning in the vicinity of the project includes R-6, R-8, R-18, R-24, and R-48 (see **Attachment 1** for zoning map). The uses in the vicinity include single-family residential, multi-family residential, nursing home, retail, restaurants and a bowling alley. Access to the subject property will continue to be from 15<sup>th</sup> Avenue NW, a Collector Arterial street with access to transit routes along Richmond Beach Road. Higher intensity development is encouraged along arterials where vehicular trips can be accommodated. R-18 zoning is an appropriate designation for the subject site, as it reflects a similar level of intensity as those uses near it along 15<sup>th</sup> Avenue NW.

**4. The rezone will not be materially detrimental to uses or property in the immediate vicinity of the subject rezone.**

There appear to be no negative impacts to the properties in the immediate vicinity of the subject rezone provided that the added conditions are imposed. The

proposed rezone would allow uses on the site that are similar to those uses found on the parcels to the north and east.

**5. The rezone has merit and value for the community.**

The rezone will make a non-conforming use conforming as to the zoning. It will not cause additional impacts to any part of the community because the use already exists and there will be no additional density allowed on the site. In addition, the rezone as conditioned will eliminate an access point currently available to the tenants that would permit access from NW 192<sup>nd</sup> Street and through a large single family neighborhood.

Unless conditions are applied to this property through a rezone process, the property owner has the right to construct a driveway and parking spaces on the western portion of the parcel. This course of action might increase the traffic in the neighborhood to the west even though the current structure would be required to eliminate a unit bringing the total unit count to three.

**III. RECOMMENDATION**

Based on the Findings, the Planning Commission recommends approval of application #201518; a rezone from R-12 to R-18 with the following conditions:

1. Limit the number of units to four.
2. Record a legal document in a form acceptable to the City Attorney that would eliminate vehicular access to NW 192<sup>nd</sup> Street except for maintenance or emergency vehicles.
3. Prohibit access easements across the site to serve other property owners.
4. Require a 10-foot wide, Type I landscape buffer along the western edge of the property.
