A. Background

Contribute meaningfully to the analysis of the proposal.

Agree or disagree for non-projected actions in Part B - Environmental Elements that are not agreed to on the checklist. The lead agency should be read as "projected, plan amendment" and "projected, proposal." For non-projected actions, complete the applicable rows of sections A and B of the supplemental sheet for nonprojected actions (part D). Please complete the applicable rows of sections A and B of the supplemental sheet for nonprojected actions (part D).

Purpose of checklist:

1. Name of proposed project (if applicable):

2. Name of applicant:

2017 Comprehensive Plan Amendments:

City of Shoreline
The EIS may or may not shape the policies in the City's Point Wells Subarea Plan. The Point Wells EIS is currently under review with Sonoma County. The outcomes of proposals directly affecting the property covered by your proposal if yes, explain.

9. Do you know whether applications are pending for governmental approvals of other amendments directly affecting the property covered by your proposal? If yes, explain.

If you have any plans for future additions, expansion or other activity related to or connected with this proposal? If yes, explain.

City of Shoreline:

Policies and Update of the Parks, Recreation, and Open Space Master Plan:

Therefore, the City is currently engaged in the 145th Street Study and is working towards annexation of 145th Street. Amend the Comprehensive Plan for 145th Street annexation and all applicable maps.

2. Consider amendments to the Point Wells Subarea Plan and other elements of the Development of Interlocal Agreements as described in Policy Pw-1.

3. Consider amendments to the Comprehensive Plan that would result from the recommendations of the Transportation Corridor Study. The City intends to file a dock filing at 145th Street in the Comprehensive Plan that does not include 145th Street.

4. The 2017 Comprehensive Plan Docket includes:

- The Coast Mountain Plan Amendment to R36.70A. This amendment is to include additional specific information on project description.
- Amend the Comprehensive Plan for 145th Street annexation and all applicable maps.

Review Process. The 2017 Comprehensive Plan Docket includes:

- Directs cities to create a dock filing that lists the amendments that are to be considered in this year's process. These include certain aspects of your proposal. The City of Seattle is not required to adopt these amendments on this dock filing.
- There are several questions here in this dock filing that ask you to describe certain aspects of your proposal. You do not need to respond to those questions on this dock filing.
- Give brief, complete description of your proposal, including the proposed uses and the size of the project.

10. List any government approvals or permits that will be needed for your proposal if known.
On October 22, 2002 the City and Ronald Wastewater District entered into a 15-year Interlocal Plan as the City's Wastewater Provider.

7. Change Ronald Wastewater District to City of Shoreline throughout the Comprehensive

implementation

Utility Policy. Consider the use of alternative energy in all new government facilities, was

zone, parks, recreation and open space, natural environment, and housing policies. One of the

In addition, the City has created a Light Rail Station Subarea Plan and Open Space

The PROS Plan includes goals and policies that provide direction for ROPS.

Challenges and maintains and invests in parks, recreation and open space facilities.

The PROS Plan establishes a 20-year vision and framework for Shoreline's recreation and
The City of Shoreline is proposing amendments to the Shoreline Comprehensive Plan that relate to the checklist described below. The amendments include proposals that apply to the following elements of the plan:

- Shoreline Open Space Master Plan
- Greenway Plan
- Bicycle and Pedestrian Plan
- Land Use and Community Design
- Capital Facilities Plan
- Shoreline Plan

The proposed amendments are not required to duplicate maps or detailed plans submitted with any permit applications. Instead, they are intended to clarify and provide additional resources and specialized equipment for the delivery of adequate fire and rescue services, and cultural resources that integrate mixed uses. These types of developments will require additional resources and specialized equipment for the delivery of adequate fire and rescue services.

The Shoreline Fire Department has completed the 2018-2023 Capital Facilities Plan. The plan consists of six years of capital project needs and includes six annual project plans. The goal of the Shoreline Fire Department is to plan for future growth in the area, especially from the recession.

The City of Shoreline is already experiencing growth and the need for additional firefighters and resources. The plan is to increase the number of firefighters to meet the needs of the growing population. The proposed amendments are intended to clarify and provide additional resources and specialized equipment for the delivery of adequate fire and rescue services.
ENVIRONMENTAL ELEMENTS

B. Shoreline

Shoreline. Shoreline School District and other publicly owned properties in the City of Richmond. The map includes a map of all park and open space land that is owned by the City or Shoreline School District and other publicly owned properties. The Shoreline Plan study area consists of all incorporated land within the City of Richmond. The Shoreline Plan study area does not include all incorporated land that is owned by the City or Shoreline School District and other publicly owned properties.

In all new government facilities, consider the use of alternative energy sources. Shoreline’s Comprehensive Plan. This document includes a map of all park and open space land that is owned by the City or Shoreline School District and other publicly owned properties. The Shoreline Plan study area includes all incorporated land within the City of Richmond. The Shoreline Plan study area does not include all incorporated land that is owned by the City or Shoreline School District and other publicly owned properties.

1. Earth

a. General description of the site:

- Earth

b. What is the steepest slope on the site (approximate percent slope)?

- (circle one): Flat, rolling, hillside, steep slope, in mountains, other (please specify). Developed.

c. Where general types of soils are found on the site (for example, clay, sand, gravel, peat, loam, etc.)?

- Most and eastern most portions of the City.

Recent geologic mapping of King County (Booth and Wisner, 2006) identifies the City as being underlain primarily by glacially derived or glacially overdrained soils. The City has several zones that are significantly affected by the presence of these soils, including:

- Remineralizing any of these soils.

- Agricultural land of long-term commercial significance and whether the proposal results in

- Muck? If you know the classification of agricultural soils, specify them here and note any

3) Estimate the amount of all and dredge material that would be placed in or removed

SMC 20.80 0.10-500. The Critical Areas Ordinance was revised in 2015.

The Critical Areas Ordinance is subject to critical areas regulations such as
weather. If yes, please describe and attach available plans.

Does not apply.

2) Will the project require any work over 1,000 feet of adjacent to within 200 feet of the described

Check the types of vegetation found on the site:

- Crop or grain
- Pasture
- Grass
- Shrubs
- Evergreen tree: fir, cedar, pine, other
- Deciduous tree: aspen, maple, other

4. Plants

Does not apply.

d. Proposed measures to reduce or control surface, ground, and runoff water, and drainage

Does not apply. It should be noted that the PROS Plan may identify future projects that do so, describe.

3) Does the proposal alter or otherwise affect drainage patterns in the vicinity of the site?

Comprehensive Plan

Additional information about impairments and mitigation associated with development that would have to meet development regulations. See SMC 20.60-100-130 adequacy of public facilities—surface and stormwater management.

Does not apply. It should be noted that the PROS Plan may identify future projects that do so, describe.

2) Could wastewater materials enter ground or surface waters? If so, generally describe.

WILL this water flow into other waters? If so, describe.

And disposal? (Indicate quantity if known). Where will this water flow?

1) Describe the source of runoff (including storm water) and method of collection:

- Water runoff (including stormwater):

Does not apply.

The number of animals or humans the system(s) are expected to serve.

Following chemicals: agricultural; etc.: Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable). On the following chemical(s):
This is a nonproposed action. Does not apply. The PROS Plan contains goals and policies that promote the preservation of vegetation and wildlife habitat. Please note that the goal of this Action is to preserve or enhance wildlife, if any.

d. Proposed measures to preserve or enhance wildlife, if any:

- Pacific Flyway for migratory birds. Some positions of the City (primarily riparian corridors) are thought to serve as local migration routes.

- Other

This is a nonproposed action. Does not apply. This is the site part of a migration route? If so, explain:

This is a nonproposed action. Does not apply.

b. List any threatened and endangered species known to be on or near the site:

- Fish: salmon, trout, hermit, shad
- Mammals: deer, elk, beaver, other
- Birds: hawk, heron, eagle, sandpipers, other

Examples include:

- Other

a. List any birds and other animals which have been observed on or near the site or are known to be on or near the site:

5. Animals

Does not apply.

e. List all noxious weeds and invasive species known to be on or near the site:

Does not apply.

c. List threatened and endangered species known to be on or near the site:

Vegetation on the site, if any:

d. Proposed landscaping, use of native plants, or other measures to preserve or enhance:

Does not apply. The City of Shoreline is home to a number of priority species.

c. Other:

Does not apply. Additional requirements for tree retention and planting on all lands.

500 contain regulations that limit vegetation removal in critical areas and buffers and does not apply. Note that the Development Code SMC 20.200.370 and 20.80.10.

b. What kind and amount of vegetation will be removed or altered?

X Other types of vegetation
located within the project area and in the vicinity.

And design. This includes underground hazardous liquid and gas transmission pipelines
